

EDUCATION

THE PENNSYLVANIA STATE UNIVERSITY, University Park, PA
B.S. in Computer Science, Minors in Cybersecurity, Math, and Entrepreneurship; Schreyer Honors College GPA: 3.62 / 4.00
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Intro to Web Development, Operating Systems, Software Design, Systems Programming
SKILLS: AWS, C, CSS, Docker, Git, HTML, Linux, LLM APIs, Java, JavaScript, MongoDB, Python, React, SQL, TypeScript

Expected Graduation: May 2027

WORK EXPERIENCE

OPERATIONS INTERN
Presidential Leadership Academy
▪ Leads alumni outreach initiatives, coordinating 6+ alumni city groups across the U.S. to expand engagement and networking opportunities for current and past scholars
▪ Plans Academy-hosted events with 100+ attendees, including esteemed alumni and university stakeholders

The Pennsylvania State University
April 2026 - Present

AI ENGINEER INTERN - VENAI TEAM
Venerable
▪ Architected Python-based automation tools and applications utilizing AWS Bedrock for investment product strategy, finance, and compliance teams, including a compliance merge pipeline that cut policy review time by 80%
▪ Designed and proposed a Fund Grid web application using Strands Agents to replace manual entry, improving data consistency across 200+ managed funds and fund products.
▪ Presented architecture, LLM cost analysis, and scalability recommendations to technical and business stakeholders, securing support for future development

West Chester, PA
May 2026 - August 2026

ARTIFICIAL INTELLIGENCE / MACHINE LEARNING INTERN
Vevey
▪ Fine-tuned LLM prompt engineering for an AI-native game maker, improving model accuracy by 75% in generating 2D/3D coding games with Phaser.js and Three.js using Mistral’s API
▪ Implemented MongoDB schemas with Mongoose, enabling real-time data modeling, validation, and multi-user project tracking in the chatbot backend
▪ Built full-stack features alongside an interdisciplinary team, creating a React + TypeScript marketplace UI with game sharing capabilities tested by 500+ students across 5 partner organizations

New York City, NY
June 2025 - August 2025

PROJECTS

ESDRS APP
▪ Leads development and UI/UX design of a social mobile application promoting sustainability within fashion
▪ Won Dave Hall Award for interdisciplinary design and innovation in the Bardusch Family IdeaMakers Challenge

March 2026 - Present

IMMERSIVE DEMENTIA CARE MIXED REALITY SIMULATION
▪ Developed multiplayer for a Unity Mixed Reality training module on Meta Quest, using Photon Fusion to support instructor and student roles across two headsets
▪ Redesigned the session lobby and in-headset UI, improving host/client connections and fixing scene transition bugs
▪ Built a synced voting system for student dialogue choices, with the instructor controlling scenario progression

January 2026 - May 2026

LEADERSHIP AND INVOLVEMENT

PRESIDENTIAL LEADERSHIP ACADEMY SCHOLAR
Presidential Leadership Academy (PLA)
▪ Strengthened critical thinking, global perspectives, public speaking, and leadership skills through traveling and honors classes led by the President of Penn State, the Dean of the Schreyer Honors College, and notable faculty

The Pennsylvania State University
April 2024 - Present

ENGINEERING AMBASSADOR
College of Engineering
▪ Engaged 50+ prospective students and families through campus tours, presentations, and interactive events for Penn State College of Engineering’s ambassadors program, encouraging enrollment for aspiring engineers

The Pennsylvania State University
April 2025 - Present

AWARDS AND RECOGNITION: Dave Hall Award (2026), Dean’s List (2023-2025), Van Dyke Memorial Scholarship (2024), Academic Excellence Scholarship (2023), National Merit Finalist (2023), Public Speaking PA State Semi-Finalist FBLA (2020)
